	ods			cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.				
	Special for fire-	protective equipment fighters	:	In the event of fire Use personal prot	e, wear self-contained breathing apparatus. ective equipment.			
SEC	TION 6	. ACCIDENTAL RELE	ASE	E MEASURES				
	Personal precautions, protec- : tive equipment and emer- gency procedures			Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).				
	Environmental precautions			Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.				
Methods and materials for : containment and cleaning up			:	Allow to solidify, use mechanical handling equipment. Sweep up or vacuum up spillage and collect in suitable con- tainer for disposal. Local or national regulations may apply to releases and dispo- sal of this material, as well as those materials and items em- ployed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.				
SEC	TION 7	. HANDLING AND STO	OR/	AGE				
	Technic	cal measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.				
	Local/T	otal ventilation	:	If sufficient ventilation is unavailable, use with local exhaus ventilation.				
	Advice	on safe handling	:	Do not breathe de	composition products.			
				Avoid contact duri Do not get on skir	ng pregnancy and while nursing. or clothing.			

Do not breathe dust, fume, gas, mist, vapors or spray. Do not swallow.

- Avoid contact with eyes.
- Wash skin thoroughly after handling.

Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment

Keep container tightly closed. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the

Version 4.0	Revision Date: 05/29/2023	SDS Number: 10776891-00007	Date of last issue: 11/10/2022 Date of first issue: 06/07/2017				
		environment.					
Condit	ions for safe storage	<ul> <li>Keep in properly labeled containers.</li> <li>Store locked up.</li> <li>Keep tightly closed.</li> <li>Store in accordance with the particular national regulation</li> </ul>					
Materials to avoid		<ul> <li>Do not store with the following product types: Strong oxidizing agents Self-reactive substances and mixtures Organic peroxides Explosives Gases</li> </ul>					

#### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Tin	7440-31-5	TWA	2 mg/m <sup>3</sup>	CA AB OEL

Engineering measures	10) Mir If s	Processing may form hazardous compounds (see section 10). Minimize workplace exposure concentrations. If sufficient ventilation is unavailable, use with local exhaust ventilation.					
Personal protective equ	ipment						
Respiratory protection	sur	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the re- commended guidelines, use respiratory protection.					
Filter type :		Self-contained breathing apparatus					
Hand protection Material	: Hea	Heat resistant gloves					

Version 4.0	Revision Date: 05/29/2023		DS Number: 9776891-00007	Date of last issue: 11/10/2022 Date of first issue: 06/07/2017		
Ма	aterial	:	Nitrile rubber			
Ma	aterial	:	Natural Rubber			
Remarks		:	Choose gloves to protect hands against chemicals depend on the concentration specific to place of work. For special applications, we recommend clarifying the resistance to ch micals of the aforementioned protective gloves with the glo manufacturer. Wash hands before breaks and at the end o workday. Breakthrough time is not determined for the pro- duct. Change gloves often!			
Eye protection		:	Please follow all applicable local/national requirements wh selecting protective measures for a specific workplace. Wear the following personal protective equipment: Safety glasses Always wear eye protection when the potential for inadver eye contact with the product cannot be excluded.			
Skin and body protection			Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).			
Hygiene measures		:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the wor- king place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.			

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	:	solid
Color	:	silver, gray
Odor	:	odorless
Odor Threshold	:	No data available
рН	:	No data available
Melting point/freezing point	:	> 100 °C
Initial boiling point and boiling range	:	1,740 °C

### STOT-single exposure

Not classified based on available information.

### STOT-repeated exposure

Causes damage to organs (Kidney, Central nervous system, Blood) through prolonged or repeated exposure.
