* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES					
General advice :	 In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice. 				
If inhaled :	: If inhaled, remove to fresh air. Get medical attention if symptoms occur.				
In case of skin contact :	 In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse. 				
In case of eye contact :	 Flush eyes with water as a precaution. Get medical attention if irritation develops and persists. 				
If swallowed :	 If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water. 				
Most important symptoms : and effects, both acute and delayed	: May cause an allergic skin reaction.				
Protection of first-aiders :	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).				
Notes to physician :	: Treat symptomatically and supportively.				

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet
Specific hazards during fire fighting	:	Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides Nitrogen oxides (NOx) Sulfur oxides

according to the Hazardous Products Regulations

SIG 3000, Super impact grease, 397 g

Vers 2.3	sion	Revision Date: 08/22/2023		S Number: 294674-00006	Date of last issue: 07/28/2023 Date of first issue: 11/25/2021
				Metal oxides	
	Specific extinguishing meth- ods Special protective equipment for fire-fighters		:	 Use extinguishing measures that are appropriate to local cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe so. Evacuate area. 	
			:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.	
SEC	SECTION 6. ACCIDENTAL RELEA			E MEASURES	
	tive equ	al precautions, protec- ipment and emer- procedures	:		ective equipment. Ing advice (see section 7) and personal pro- recommendations (see section 8).
	Environmental precautions		:	Retain and dispos	akage or spillage if safe to do so. e of contaminated wash water. hould be advised if significant spillages
		s and materials for ment and cleaning up	:	tainer for disposal Local or national r sal of this materia ployed in the clear which regulations Sections 13 and 1	egulations may apply to releases and dispo- l, as well as those materials and items em- nup of releases. You will need to determine

SECTION 7. HANDLING AND STORAGE

Technical measures :	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation :	Use only with adequate ventilation.
Advice on safe handling :	Do not get on skin or clothing. Avoid breathing dust, fume, gas, mist, vapors or spray. Do not swallow. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Take care to prevent spills, waste and minimize release to the environment.
Conditions for safe storage :	Keep in properly labeled containers. Store in accordance with the particular national regulations.

			late matter)
This : hazar		bioava	ailable and therefore does not contribute to a dust inhalation
Engir	neering measures	:	Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.
Perso	onal protective equip	oment	i de la constante de
	iratory protection	:	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the re- commended guidelines, use respiratory protection.
Fil	ter type	:	Combined particulates and organic vapor type
Hand	protection		
Ма	aterial	:	Chemical-resistant gloves
Re	emarks	:	For prolonged or repeated contact use protective gloves. Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. Breakthrough time is not determined for the product. Change gloves often! For special applications, we recommend clarifying the re- sistance to chemicals of the aforementioned protective glo- ves with the glove manufacturer. Wash hands before breaks and at the end of workday.
Еуе р	protection	:	Wear the following personal protective equipment: Safety glasses Always wear eye protection when the potential for inadvertent eye contact with the product cannot be excluded. Please follow all applicable local/national requirements when selecting protective measures for a specific workplace.
Skin a	and body protection	:	Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).
Hygie	ne measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the wor- king place. When using do not eat, drink or smoke. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before re-use.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods Waste from residues	:	Dispose of in accordance with local regulations.
		Do not dispose of waste into sewer.
Contaminated packaging	:	Empty containers should be taken to an approved waste handling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.

SECTION 14. TRANSPORT INFORMATION

International Regulations

UNRTDG

Not regulated as a dangerous good

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Domestic regulation

TDG

Not regulated as a dangerous good

Special precautions for user

Not applicable

SECTION 15. REGULATORY INFORMATION

Volatile organic compounds (VOC) content	Canada - Volatile Organic Compound Concentration Limits for Certain Products Regulations VOC content: < 1 %
The ingredients of this product	are reported in the following inventories:
DSL :	All chemical substances in this product comply with the CEPA

1999 and NSNR and are on or exempt from listing on the Canadian Domestic Substances List (DSL).

SECTION 16. OTHER INFORMATION

Full text of other abbreviations ACGIH : USA. ACGIH Threshold Limit Values (TLV)

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
