Othe	r hazards		
None	known.		
SECTION	3. COMPOSITION/INF	ORMATION ON IN	GREDIENTS
Subs	tance / Mixture	: Mixture	

Components

Chemical name	Common Name/Synonym	CAS-No.	Concentration (% w/w)
Soaps, potassium	No data availa- ble	Not Assigned	>= 30 - < 60 *
Glycerine	1,2,3- Propanetriol	56-81-5	>= 5 - < 10 *
Potassium hydroxide	Caustic potash	1310-58-3	>= 0.5 - < 1 *

* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air.

Version 2.2	Revision Date: 09/14/2021	SDS Num 408235-00		
		Get m	nedical attention if symptoms occur.	
In c	In case of skin contact		e of contact, immediately flush skin with plenty of water least 15 minutes while removing contaminated clothing hoes. nedical attention. clothing before reuse. nughly clean shoes before reuse.	
In c	In case of eye contact		In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lens, if worn. Get medical attention.	
If sv	If swallowed		llowed, DO NOT induce vomiting. nedical attention if symptoms occur. mouth thoroughly with water.	
and	st important symptoms effects, both acute and ayed		es skin irritation. es serious eye irritation.	
Pro	tection of first-aiders	and us	Aid responders should pay attention to self-protection, se the recommended personal protective equipment the potential for exposure exists (see section 8).	
Not	es to physician	: Treat	symptomatically and supportively.	

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides Metal oxides
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters	:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

Version	Revision Date:	SDS Number:	Date of last issue: 11/02/2020
2.2	09/14/2021	408235-00005	Date of first issue: 09/25/2018

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material. For large spills, provide diking or other appropriate contain- ment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dispo- sal of this material, as well as those materials and items em- ployed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures :		See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.	
Local/Total ventilation	:	Use only with adequate ventilation.	
Advice on safe handling	:	Do not get on skin or clothing. Avoid breathing vapors. Do not swallow. Do not get in eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Take care to prevent spills, waste and minimize release to the environment.	
Conditions for safe storage	:	Keep in properly labeled containers. Store in accordance with the particular national regulations.	
Materials to avoid	:	Do not store with the following product types: Strong oxidizing agents	

Version	Revision Date:	SDS Number:	Date of last issue: 11/02/2020
2.2	09/14/2021	408235-00005	Date of first issue: 09/25/2018

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Glycerine	56-81-5	TWA (Mist)	10 mg/m ³	CA AB OEL
		TWA (Mist)	10 mg/m ³	CA BC OEL
		TWA (Res- pirable mist)	3 mg/m ³	CA BC OEL
		TWAEV (Mist)	10 mg/m ³	CA QC OEL
Potassium hydroxide	1310-58-3	(c)	2 mg/m ³	CA AB OEL
		C	2 mg/m ³	CA BC OEL
		С	2 mg/m ³	CA QC OEL
		С	2 mg/m ³	ACGIH

Engineering measures	:	Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.	
Personal protective equipme	ent		
Respiratory protection	:	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the re- commended guidelines, use respiratory protection.	
Filter type	:	Organic vapor Type	
Hand protection			
Material	:	Chemical-resistant gloves	
Remarks	:	Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. Breakthrough time is not determined for the product. Change gloves often! For special applications, we recommend clarifying the re- sistance to chemicals of the aforementioned protective glo- ves with the glove manufacturer. Wash hands before breaks and at the end of workday.	
Eye protection	:	Wear the following personal protective equipment: Safety goggles	
Skin and body protection	:	Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).	
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the wor- king place.	

Version 2.2	Revision Date: 09/14/2021		S Number: 3235-00005	Date of last issue: 11/02/2020 Date of first issue: 09/25/2018
			When using do no Wash contaminat	ot eat, drink or smoke. ed clothing before re-use.
