SECTION 4. FIRST AID MEASU	RES	
General advice	:	In the case of

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lens, if worn. Get medical attention.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed	:	Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. May damage the unborn child. Suspected of damaging fertili- ty.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).

Versior 1.4	n Revision Date: 11/17/2022		OS Number: 47103-00005	Date of last issue: 06/09/2022 Date of first issue: 11/04/2019		
No	otes to physician	:	Treat symptomati	cally and supportively.		
SECTI	ON 5. FIRE-FIGHTING ME	ASL	JRES			
Su	Suitable extinguishing media		Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical			
	Unsuitable extinguishing media		None known.			
	Specific hazards during fire fighting		Exposure to combustion products may be a hazard to health.			
	Hazardous combustion prod- ucts		Carbon oxides Silicon oxides			
Sr oc	becific extinguishing meth- ls	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do		
	Special protective equipment : for fire-fighters		In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.			
SECTI	ON 6. ACCIDENTAL RELE	AS	E MEASURES			
tiv	ersonal precautions, protec- e equipment and emer- ency procedures	:		ective equipment. ing advice (see section 7) and personal pro- recommendations (see section 8).		

Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material. For large spills, provide diking or other appropriate contain- ment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent.

Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.

Version 1.4	Revision Date: 11/17/2022		DS Number: 247103-00005	Date of last issue: 06/09/2022 Date of first issue: 11/04/2019	
				15 of this SDS provide information regarding ational requirements.	
SECTION	7. HANDLING AND ST	OR	AGE		
Tech	nical measures	:		measures under EXPOSURE SONAL PROTECTION section.	
Local	Local/Total ventilation		If sufficient ventilation is unavailable, use with local exhaust ventilation.		
Advice on safe handling		:	Do not get on skin or clothing. Do not breathe vapors. Do not swallow. Do not get in eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safe practice, based on the results of the workplace exposure as sessment Keep container tightly closed. Take care to prevent spills, waste and minimize release to the environment.		
Cond	Conditions for safe storage		Keep in properly labeled containers. Store locked up. Keep tightly closed. Store in accordance with the particular national regulations		
Mate	rials to avoid	:	Strong oxidizing a	stances and mixtures	

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Nepheline Syenite	37244-96-5	TWA (Total dust)	10 mg/m ³	CA ON OEL

Engineering measures	:	Minimize workplace exposure concentrations. If sufficient ventilation is unavailable, use with local exhaust ventilation. Dust formation may be relevant in the processing of this pro- duct. In addition to substance-specific OELs, general limitati- ons of concentrations of particulates in the air at workplaces have to be considered in workplace risk assessment. Rele- vant limits include: OSHA PEL for Particulates Not Otherwise
		vant limits include: OSHA PEL for Particulates Not Otherwise
