Reco	mmended use	:	Adhesives	

Restrictions on use : Not applicable

### **SECTION 2. HAZARDS IDENTIFICATION**

### GHS classification in accordance with the Hazardous Products Regulations

Not a hazardous substance or mixture.

### **GHS** label elements

No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required

## Other hazards

None known.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

rsion	Revision Date: 05/10/2023	SDS Numl 10681642·		Date of last issue: 02/02/2023 Date of first issue: 09/19/2016
Subst	ance / Mixture	: Mixture	Э	
Comp	oonents			
		Common Name/Synonym	CAS-No.	Concentration (% w/w)
Cume	ene hydroperoxide	α, α- Dimethylbenzyl hydroperoxide	80-15-9	>= 0.1 - < 1 *
2'- Pheny	/lacetohydrazide	1-Acetyl-2- phenylhydrazine	114-83-0	>= 0.1 - < 1 *

### SECTION 4. FIRST AID MEASURES

If inhaled	:	If inhaled, remove to fresh air. Get medical attention if symptoms occur.
In case of skin contact	:	Wash with water and soap as a precaution. Get medical attention if symptoms occur.
In case of eye contact	:	Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed	:	None known.
Protection of first-aiders	:	No special precautions are necessary for first aid responders.
Notes to physician	:	Treat symptomatically and supportively.

### SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Nitrogen oxides (NOx) Sulfur oxides Carbon oxides Silicon oxides

Version 5.0	Revision Date: 05/10/2023	SDS Number: 10681642-00012		Date of last issue: 02/02/2023 Date of first issue: 09/19/2016
Specil ods	Specific extinguishing meth- ods		<ul> <li>Use extinguishing measures that are appropriate to local cumstances and the surrounding environment.</li> <li>Use water spray to cool unopened containers.</li> <li>Remove undamaged containers from fire area if it is safe so.</li> <li>Evacuate area.</li> </ul>	
	al protective equipment e-fighters	:	necessary.	ed breathing apparatus for firefighting if tective equipment.

### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material. For large spills, provide diking or other appropriate contain- ment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dispo- sal of this material, as well as those materials and items em- ployed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

### SECTION 7. HANDLING AND STORAGE

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	:	Use only with adequate ventilation.
Advice on safe handling	:	Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Take care to prevent spills, waste and minimize release to the environment.
Conditions for safe storage	:	Keep in properly labeled containers.

Version	Revision Date:	SDS Number:	Date of last issue: 02/02/2023

Mate	rials to avoid		ance with the particular national regulations. h the following product types: agents

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Ingredients with workplace control parameters

Contains no substances with occupational exposure limit values.

Engineering measures		Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.
Personal protective equipm	ent	
Respiratory protection :		If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the re- commended guidelines, use respiratory protection.
Filter type	:	Particulates type
Hand protection		
Material Break through time Glove thickness	:	Nitrile rubber 480 min > 0.35 mm
Material Break through time Glove thickness	:	Nitrile rubber 480 min > 1.8 mm
Remarks	:	Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. For special applications, we recommend clarifying the resistance to che- micals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.
Eye protection	:	Wear the following personal protective equipment: Safety glasses Always wear eye protection when the potential for inadvertent eye contact with the product cannot be excluded. Please follow all applicable local/national requirements when selecting protective measures for a specific workplace.
Skin and body protection	:	Skin should be washed after contact.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the wor- king place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.
